1961 SUMMER SALE

Each year we run a "Special" during July and August at **RETAIL ONLY**. SELECTED CATTLEYS

A group of the very best. Items like Blc. Norman's Bay var. Low F.C.C. is indeed a very rare thing. Once in awhile you see it offered, but usually when you try to obtain it the story is **SOLD OUT**. We have about four divisions to offer. First Come, First Served!

c. Gigas Alba var. Firmin Lambeau F.C.C.R.H.S. is another very rare plant. Selfed unflowered seedlings are currently being offered at \$35.00 each. Ours are divisions of the original clone that once sold for \$10,000.00 per plant.

Many of the yellows are out of this world... Others like Lc. Grandee var. Jules Furthman are wonderful studs when mated right. This plant, a tetraploid has a tendency to cripple itself, but when crossed to good diploids will produce wonderful triploid progeny... If you breed yellows this is a must!

Many of these items are very limited in stock. We will advise if sold out. We suggest you also list substitutes. In no case will we substitute unless authorized to do so by you.

In some cases the propagations are very small with regards to the number of bulbs. Unless you want the best and are willing to spend the money and time to grow them on, be sure you know what you are buying. Like all things rare, these are carefully guarded. We make no claim they are monstrous plants — Just very sound guaranteed propagations of some of the best Cattleyas to be found anywhere in the world. Remember, you can buy a ton of coal for about the price of an ounce of gold!

All Blc Norman's Bay are the original strain from Stuart Low.
